

Virginia Bowley, Registered Nurse

Virginia, RGN, RSCN, MBACP (Accred) Cert. CBT, has 20 years of post qualification experience of nursing both sick adults and children in the community, hospital settings and respite care, her last post being employed as Nurse Advisor for Sense. This is a charity for dual sensory impaired adults with challenging behaviour. Virginia took responsibility for the medical induction programme for all new staff members. She was responsible for writing all nursing care policy documents to develop the care regime for the service users, and provided in house training for the care assistants. She also gave hands on care to monitor the service user's health and well-being. She completed an in house sign language course and accompanied a group of service users on holiday. She was responsible for providing ongoing medical updates for all the care staff in the region.

From 2003 - 2006 Virginia worked as a Care Expert/Case Manager and met with clients who had suffered catastrophic injuries and carried out assessments of their past present and future nursing care requirements. She was involved in the preparation and writing of approximately 100 medico-legal reports, written for the Claimant, Defendant and on a joint basis. She attended case conferences,

joint discussions and has also been to Court to give evidence as an Expert. She has undertaken training in relation to her work as an expert witness including Courtroom skills and understanding the Mental Capacity Act 2005.

In 2006 Virginia started working as a Case Manager and acted as an independent assessor under the Code of Best Practice on Rehabilitation, Early Intervention and Medical Treatment in Personal Injury Claims, assessments being made outside the litigation process.

She has worked with clients who suffered spinal injuries, amputation, brachial plexus lesion, visual impairment, acquired brain injury, and children with cerebral palsy. Virginia has worked closely with Statutory Services throughout the UK to ensure statutory obligations are being met in order that clients are able to reach their rehabilitation potential. Where statutory provision is unable to meet a client's needs, she has initiated private provision of care and services. She has reviewed PCT funded care packages and provided an independent opinion for PCTs as to the care required to meet their client's needs.

In June 2009 Virginia joined Bush & Company to work as a Case Manager where she has broadened her clinical and case management skills to provide support for clients with catastrophic injuries such as an acquired brain injury, amputation, spinal injury and visual impairment. She is experienced in setting up and running care packages for clients and involving other health professionals to provide a holistic and client-centred approach to her case management. She has a good understanding of how the legal process works and is able to clearly communicate this to clients and their families.

Virginia is a registered member of the Nursing and Midwifery Council, and the British Association of Counsellors and Psychotherapists, and she works to the ethical frameworks set within. She is also a member of BABICM. She has maintained her Continuing Professional Development in all areas of her work life and is committed to providing a holistic approach to her work and the clients in her care.

Virginia is a qualified psychotherapist with 10 years of extensive experience working in both private practice, in a college of further education and for an agency. She assists those who have suffered post traumatic stress disorder, anxiety, bereavement, relationship difficulties, workplace issues, stress, low self-esteem and confidence. She works with both adults and children.

Virginia has also volunteered as a bereavement volunteer for Cruse bereavement care for six years and worked with adults and children and run a supervision group.
