

All about me

Hello, my name is **Holly Skinner** and it's my job to help you. I thought you'd like to know a little bit more about me.

My job

I'm a children's nurse that works with children and young people who have an injury or illness. I listen to children, young people and their families to find out what they find difficult, or where they need help, and together we find ways to make life better and achieve their goals.

I am...

Friendly

Warm

Smiley

Fun

Supportive

My proudest moment as a case manager was...

One of the young people I work with has a talent and love of art. As part of their rehabilitation I was able to organise some pottery classes, incorporating their ambition and love of art but also provided a space for hand-eye coordination exercises,

social inclusion, well-being and self-esteem. The feedback from the young person was hugely positive, and they were so proud of the work that they had created during their sessions.

When I was growing up I wanted to be....

A vet, as I love animals. I quite fancied the idea of being a vet at the zoo so I could work with elephants and gorillas!

My hidden talent is...

I can fly a plane (although my skills are probably a little rusty!).

I am happy when...

Spending time with my family camping, especially when we're near the beach. I love swimming in the sea, even when it's freezing cold!

I don't like...

When I've run out of biscuits! Especially the chocolate digestives!
