

Darren Ayres

Case Manager

Occupational Therapist

HCPC OT0219772

Disability/Injury:

Acquired brain injury; amputation; behaviour; brachial plexus; burns; cerebral palsy; chronic pain; complex orthopaedic injury; general musculoskeletal/soft tissue injury; hand and upper limb injury; management of complicating factors; sensory impairment

Adults

Darren is a Registered Occupational Therapist who has been working with individuals with complex disabilities and neurological impairments for the last ten years. Darren has worked in a variety of community and hospital based settings prior to his role as a Case Manager. He has a comprehensive understanding of the complexities individuals face following injury and a thorough awareness of the many diverse and challenging elements attributed to the litigation process.

Darren's comprehensive assessment skills have allowed him to provide robust, goal orientated treatment programmes, enhancing physical, cognitive, behavioural and emotional function. His advanced clinical reasoning skills ensure an individual's on-going needs are met appropriately. Darren's reflective and client centred approach to an individual's needs are key to his success as a Case Manager. Darren has an extensive knowledge of the services that are available for impaired individuals and is an expert in accessing the appropriate care/treatment options for his clients.

Location:

South England, South East England

Professional Experience:

Darren works as a Senior Case Manager specialising in acquired brain injury, amputation and complex orthopaedic injuries. Prior to this he managed a Community Re-ablement Team in London. This pioneering service was the first of its type in the country and focused on clients increasing their independence in the community. Darren has also worked as a Senior Occupational Therapist for a Community Neurological Rehabilitation Team.

Professional Qualification and Education:

- BSc Hons Occupational Therapy

Membership and Affiliations:

- Member of the British Association of Brain Injury Case Managers
- Member of the British Association of Occupational Therapists
- Registered with the Health and Care Professions Council
